

device

```
graph BT; router[router] --> device[device]
```

A diagram illustrating a relationship between two entities. At the top is a rectangular box with a thick black border containing the word "device". At the bottom is another rectangular box with a thick black border containing the word "router". A vertical black line connects the bottom center of the "router" box to the bottom center of the "device" box, ending in a black arrowhead pointing upwards towards the "device" box.
